

Permanent QR code print specifications

For prepress, packaging, label and equipment-tag teams. Every code is editable after printing; the printed pattern never changes.

PRINT FILES AND SPECS

File formats	SVG and EPS vector files, plus 300 DPI PNG
Error correction	Levels L to H. Use H on curved, textured or small-print surfaces: it keeps the code readable with up to 30% of it damaged or covered.
Minimum size	2 × 2 cm (0.8 × 0.8 in). Increase for longer scanning distances.
Quiet zone	Checked before export
Bulk creation	Create codes from a CSV
Automation	REST API
Branding	Your logo and colors; your own domain on the code

LICENSE

- Perpetual license per code, no term end
- \$49 per code, down to \$10 at volume
